

Equality and Diversity UK

Join the Change:

Make a difference in schools by becoming a School Governor!

Are you passionate about education and representation?

Did you know that while 34% of children in our schools are from ethnically diverse backgrounds, only 7% of school governors reflect that diversity?

We believe our schools should represent the communities they serve, and that's where you come in!

Why become a School Governor?

- **Have a Voice:** Help shape the future of our schools, policies, and educational practices.
- **Be the Change:** Represent your community and ensure all students' needs and experiences are valued.
- **Empower the Next Generation:** Inspire children from all backgrounds to see themselves as future leaders.
- **Develop Leadership Skills:** Gain valuable experience in governance, strategy, and decision-making.

How we'll support you

- **Dedicated Mentorship:** Experienced governors will guide you every step of the way.
- **Training Workshops:** From understanding policies to learning the basics of governance, we've got you covered.
- **Networking Opportunities:** Connect with a diverse group of governors who share your vision.
- **Flexible Commitment:** We understand life is busy, and we'll help find a role that suits your availability.

Join us and make a lasting impact!

Together, we can create a more inclusive and equitable education system.

EDUK Governors Network connects individuals in the governance space with each other (from prospective governors and trustees to experienced governors); and provides Equity, Diversity and Inclusion training to schools, trusts and organisations with respect to anti-racist curriculum, classrooms, working/learning spaces, equality, diversity and inclusion in particular.
