

Evaluation/Feedback Completion Requirement

As part of our commitment to delivering high-quality training and ensuring that our programmes lead to meaningful improvements in the workplace, EDUK requires all participants to complete a post-training evaluation. This evaluation serves several important purposes:

1. **Assessment of Learning:** The evaluation helps us assess whether participants have successfully understood and absorbed the training content.
2. **Action Planning:** It encourages participants to reflect on what they have learned and identify specific actions they will take to apply this knowledge in their work.
3. **Continuous Improvement:** Feedback from the evaluation provides valuable insights into the effectiveness of our training and helps us continuously improve our programmes.
4. **Certification Integrity:** Completion of the evaluation is a critical component of our certification process. It ensures that the certificate reflects not just attendance, but also active engagement and demonstrated learning.

To maintain the integrity and value of our certification, we require that all participants complete the post-training evaluation in full. This requirement will be clearly communicated prior to the training, and we will provide support to ensure participants understand and fulfil this obligation.

By adhering to this requirement, we aim to ensure that our training translates into practical benefits and positive changes within your organisation.

Thank you for your cooperation and understanding.
